New Vision in Honduras Generator Needed. New Vision in Honduras has successfully purchased and has funds to ship the Presbyterian Eye Clinic equipment. While the town has electricity, it can go off unexpectedly. It is critical that this does not happen during eye surgery. Therefore, we need to purchase a generator to insure that the equipment will always have power during surgery. The estimated cost of a generator is \$10,000. So, we still need your help. A gift of any amount will be appreciated and help us reach this important goal. Perhaps you would like to give a Christmas gift in honor of a friend or give a gift in memory of someone whom you remember at this time of year. [Find out more.](#)
